

# **Bangladesh**

## **Report for the 12<sup>th</sup> Asia-Oceania DBPP (online) Congress**

**Bangladesh, 17 June 2021**

**Introduction:** We had started the past pupils group unofficially around the end of 2019. At the beginning there were only 4-5 of us. We are all ex-salesians and ex-seminarians. Still today we are not able to form a strong past pupil group in Bangladesh but we had planned several times to get-together. Unfortunately we are unable to come together due to this pandemic situation.

### **Current situation of the members:**

Presently almost all the members are studying in different universities in Bangladesh. Some of them are working as well as studying.

### **Our contribution to the church:**

As we had several meetings online, we had made the decision to take Christ and Don Bosco among the youth individually. Currently we are spreading Don Bosco through our Teachings, good behavior, helping in parishes and so many different ways. Some of us are almost completely engaged to help the parish priest.

### **Our Activities:**

As a group we did not have any kinds of activity as such for the youth. We could not provide support as a group in this pandemic but as an individual we contributed.

### **Some problems:**

1. Financial
2. Not able to get together
3. Communication problem
4. No proper group.

**Conclusion:** We would like to thank Father and Brother in-charge of past pupils for giving us a wonderful opportunity to share our stories with you. We look forward to having a strong past pupils community in Bangladesh in near future. We believe through the intercession of Don Bosco we will bring back many more neglected youth to Christ and assist them to grow as a perfect being.

Thank you,  
On behalf of the members  
Sergio Jweet Hembrom
